STK-5711-F26-240-ONI-SB-Y

RIGHT ANGLE

### OUTLINE DRAWING

### TECHNICAL DATA

### ELECTRICAL DATA

|                       |             |
|-----------------------|-------------|
| Frequency Range       | DC to 6 Ghz |
| Impedance             | 50 $\Omega$ |
| Dielectric voltage    | 1000        |
| Insulation Resistance | $\geq 5000$ |
| VSWR                  | $\leq 1.35$ |

### MATERIAL INFORMATION

| COMPONENTS   | MATERIALS | PLATINGS (mm) |
|--------------|-----------|---------------|
| BODY         | BRASS     | ALBALOY       |
| CENTER CONT. | QBe2      | GOLD          |
| FERRULE      | BRASS     | ALBALOY       |
| NUT          | BRASS     | ALBALOY       |
| INSULATOR    | PTFE      |               |
| GASKET       | SILICONE  |               |

### MECHANICAL INFORMATION

|                               |               |
|-------------------------------|---------------|
| CENTER CONT.                  | SPRING FLNGER |
| OUTLET CONT                   | CRIMP         |
| COUPLING NUT TORQUE           | 1.7           |
| CBL-CONNECTOR RETENTION FORCE | 300           |

|            |     |
|------------|-----|
| DURABILITY | 500 |
|------------|-----|

|                                                                                                                                                                                                                                                                                                                                                                                                                                 |          |                             |      |                                                                                                                                                   |       |                                                                                     |                                                                               |
